### **Election**

Applicant's election without traverse of claims 1-12 in the reply filed on 8-2-05 is acknowledged.

### **Claim Rejections - 35 USC § 112**

Claims 1-12 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In lines 4-6 of claim 1, the applicant claims that a line width of the pad being wider than a line width of the bus line conductor "and substantially narrower than a line width of a wider section of the pad." From reading the specification and viewing the drawings, it is not clear at all as what exactly the applicant is attempting to claim. How is a line width of a pad substantially narrower than a line width of a wider section of the pad? Where exactly, in figures, applicant has shown a line width of a pad substantially narrower than a line width of a wider section of the pad? From given specification and drawings, the above claimed language is not understood at all. For ease understanding, the Applicant may draw and define these different line widths.

Regarding claims 1-12, claims 1-12 are so informal (see rejection of claims under 35 USC 112, second paragraph) that no meaningful examination can be undertaken at this time. See MPEP 702.01.
